The Honorable Gavin Newsom
Governor, State of California
State Capitol, First Floor State Capitol
Sacramento, CA 95814

Re: SB 821 (Committee on Natural Resources and Water): Sacramento-San Joaquin Delta: Delta Independent Science Board – REQUEST FOR SIGNATURE

Dear Governor Newsom:

The Sacramento-San Joaquin Delta Counties Coalition (DCC) is formed to speak with one voice on the health of the Sacramento-San Joaquin Delta. We write to request your signature on SB 821, which provides that members of the Delta Independent Science Board (DISB) are not state employees and specifies the rate of members’ hourly compensation. As a result, SB 821 seeks to reinforce the independence of the Science Board.

The DCC recognizes the importance of both the Delta Stewardship Council’s (Council) and the Science Board’s roles in furthering the goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Delta ecosystem. SB 821 would require the members of the Science Board to exercise their scientific judgment and perform their functions independently from the Council, which is needed to ensure that decisions are made based on independent science and free from any bias. In creating the DISB, the Delta Reform Act was explicit that its members not be state employees, but rather independent and impartial arbiters of scientific research pertaining to the Sacramento-San Joaquin Delta. SB 821 reinforces this independence of the Science Board by providing that members of the Board would not be classified as employees of the Council, which also resolves the Science Board compensation and funding issues that have recently arisen.

For these reasons, we respectfully request that you sign SB 821. If you have any questions about our position, please contact us through our coordinator, Natasha Drane, at 916-874-4627 or dranen@saccounty.net.

Sincerely,

Patrick Kennedy
Supervisor, Sacramento County
